

CURRICULUM VITAE

ROBERT W. THATCHER, Ph.D.

**248 176th Terrace Drive
Redington Shores, FL 33708
Tel. No. 727-244-0240**

I. EDUCATION

University of Oregon, B.S. (Chemistry)

University of Waterloo (Waterloo, Canada), Ph.D. (Psychology, Specialty Biopsychology)

II. POSTDOCTORAL TRAINING

Albert Einstein College of Medicine, Post-doctoral Training (Neurobiology & Functional Neuroanatomy)

New York Medical College, Post-doctoral Training (Neurophysiology & Clinical Neuroscience)

III. ACADEMIC AND INSTITUTIONAL APPOINTMENTS

2006- Director NeuroImaging Applied Neuroscience Laboratories, Applied Neuroscience Research Institute, St. Petersburg, Florida

1994–2006 Adjunct Professor, Department of Neurology, University of South Florida College of Medicine, Tampa, Florida

1993-2006 Director Neuroimaging Lab and Director of EEG and MRI Defense and Veterans Head Injury Program, Bay Pines Veterans Administration Hospital, Bay Pines, Florida

1991-1993 Special Expert and Project Officer - Multimodal Neuroimaging, National Institutes of Neurological Disorders and Stroke, Medical Neurology Branch, Clinical Neurosciences Program, Bethesda, Maryland

1981-1989 Director of the Neurometric Clinical Service, Maryland Medical Emergency Services Institute, University of Maryland School of Medicine, Baltimore, Maryland

1979-1989 Research Professor, Department of Human Ecology, University of Maryland Eastern Shore and Director Applied Neuroscience Research Institute.

- 1979-1991 Research Professor, Department of Psychiatry, University of Maryland School of Medicine, Baltimore, Maryland**
- 1977-1979 Research Associate Professor, Dept. of Psychiatry, New York University School of Medicine, New York, New York.**
- 1973-1977 Assistant Professor, Dept. of Psychiatry, New York Medical College, New York, New York.**
- 1972-1973 Post-doctoral Fellow, Dept. of Physiology, New York Medical College, New York, New York.**
- 1971-1972 Instructor, Neuroanatomy, Albert Einstein College of Medicine, Bronx, New York.**
- 1971-1972 Post-doctoral Fellow, Department of Anatomy Albert Einstein College of Medicine, Bronx, New York.**
- 1970-1971 Visiting Assistant Professor, Dept. of Psychology, Indiana University.**

IV. CERTIFICATES

- 1978- Certified as an Expert in Neurometrics and Clinical Electrophysiology. New York University School of Medicine, New York, New York.**
- 1992 Certificate for course completion as Basic Project Officer, National Institutes of Health.**
- 1994 Certified Neurotherapist, Academy of Certified Neurotherapists.**
- 1998 Certified in Scientific Specialty of QEEG, American Board of Certification of Quantitative Electroencephalography, September, 1998 - Diplomate**
- 1999 Biofeedback Certification Institute of America – QEEG certificate.**
- 2000 Certified in EEG/QEEG/Neurophysiology, EEG and Clinical Neuroscience (American Board of Electroencephalography and Clinical Neurophysiology – ABEN)). Ph.D. Examination Board member – ECNS/ABEN**

V. PROFESSIONAL AFFILIATIONS

- 1992- Chairman of the committee for the integration of EEG/MEG into the "Human Brain-Map", as part of the NIMH and NSF Human Brain Project.**

- 1994- Member of Scientific Committee of the International Functional Brain Mapping Society.**
- 1995- Member of the Brain Map Advisory Board for the Human Brain Map Database.**
- 1997- Executive Committee Member - American Psychiatric Electrophysiology Association and American Medical EEG Society.**
- 1998- Elected Executive Board Member, Society for the Study of Neuronal Regulation.**
- 1998- Executive Board Member, EEG and Clinical Neuroscience Society and Committee member to revise the Conventional EEG exam for Ph.D.s**
- 1998- Board member American Board of Electroencephalography and Clinical Neurophysiology – ABEN**
- 2000- National Institutes of Health Scientific Advisory Board member for the creation of a Developmental MRI database.**
- 2001-2003 Secretary, EEG and Clinical Neuroscience Society**
- 2003- Re-elected Executive Board Member, EEG and Clinical Neuroscience Society and 2004-2005 Program Committee member**
- 2012- Appointed to the Medical Advisory Board of BrainScope, Inc. for evaluation of traumatic brain injury in military personnel.**
- 2019- Member of Planning Committee of the World Human Brain Mapping Congress.**
- 2020- Appointed to the Board of Directors of the Society for Human Brain Mapping and Therapeutics (SBMT).**

VI. OTHER PROFESSIONAL ACTIVITIES

A. EDITORIAL CONSULTANT AND REVIEWER

- 1972-2017 EEG and Clin. Neurophysiol; EEG and Clinical Neurophysiology; Clinical Neurophysiology; Science; Journal of Learning Disabilities; Internat. J. Neuroscience; J. of Neuroimaging; J. of Aging; Neuroimaging; Devel. Psychology; Devel. Psychopathology; Neuroimaging, Brain and Language; Brain Topography; Internat. J. of Psychophysiol.; J. of Neurotherapy; Human Brain Mapping; Perception and Motor Skills, Developmental Neuropsychology; Clinical Electroencephalography; Brain and Cognition.**

B. EDITORIAL REVIEW BOARDS

- 1995-2002 Editorial Board of Neuroimaging**
- 1993-1997 Associate Editor, Journal of Neuroimaging**
- 1997-1999 Associate Editor, Journal of Neurotherapy**
- 1983-1998 Editorial Advisory Board, Journal of Learning Disabilities**
- 2003- Editorial Board, Journal of Clinical Electroencephalography and Neuroscience**
- 2009- Editorial Board Open Medical Imaging Journal**

C. STUDY SECTION REVIEWER

- 1996-2016 National Institutes of Health SBIR Primary Reviewer (8); SBIR Secondary Reviewer; NIH-NIMH; NIH - Human Brain Map, EEG inverse solutions, Brain Networks.**
- 1995- National Institutes of Health SBIR Primary Reviewer (2); SBIR Secondary Reviewer (2).**
- 1994- National Institutes of Health RO1 Primary Reviewer (1)**
- 1993- National Institutes of Health SBIR Primary Reviewer (4)**
- 1992- National Institutes of Health RO1 Primary Reviewer (2)**
- 1990- National Institutes of Health RO1 Secondary Reviewer (2)**
- 1989- National Science Foundation Secondary Reviewer (1)**
- 1980-1988 National Institutes of Health, National Science Foundation and Private Foundation Primary and Secondary Reviewer**

VII. MEMBERSHIP IN SCIENTIFIC SOCIETIES

- 1973-1981 American Psychological Association**
- 1973- American Association for the Advancement of Science**
- 1972-1981 Society for Neuroscience**
- 1973-1994 New York Academy of Science**
- 1978-1988 International Society of Neuropsychology**
- 1994-1997 Society of Magnetic Resonance in Medicine**
- 1994-1997 Society for Magnetic Resonance Imaging**

1996-2000 **Human Brain Mapping Society**
1996-1999 **Society for Neuronal Regulation Research**
1998- **EEG and Clinical Neuroscience Society**
1999- **International Society for Neurofeedback & Research**
2009- **Association for Applied Psychophysiology & Biofeedback**
2020- **Member of the Congressional Neuroscience Caucus**

X. PROFESSIONAL AWARDS AND HONORS

1968-1970 **National Research Council Scholarship, University of Waterloo**

1970- **Undergraduate Teaching Fellowship, University of Waterloo**

1971-1972 **N.I.H. Postdoctoral Fellowship**

1972-1973 **N.I.H. Postdoctoral Fellowship**

1981- **Outstanding Scientist of the Year Award, Science Digest Magazine, December, 1981.**

1982- **Third Prize for a Scientific Exhibit, Congress of Neurological Surgeons, Toronto, Canada, October, 1982.**

1985- **Chancellor's Award for Outstanding Research, University of Maryland Eastern Shore, March 27, 1985.**

1988- **IBM Fulcrum Award For Advanced Education Project.**

1991- **Awarded Research Fellowship to the Center for Advanced Study, Stanford University, 1992 - 1993.**

1998- **Life Time Achievement Award for Work in the Scientific Specialty of QEEG, American Board of Certification of Quantitative Electroencephalography, September, 1998.**

2008- **The Hans Berger Award of Merit, Association for Applied Psychophysiology and Biofeedback, Neurofeedback Division, May 16, 2008.**

2009- **Life Time Achievement Award in EEG and Quantitative EEG, International Society for Neurofeedback and Research, Indianapolis, Indiana, September, 2009.**

2012- **Best Paper Award: “Differentiating transformational and non-transformational leaders on the basis of neurological imaging”. Published in The Leadership Quarterly, 2012. Sponsored by the Center for Creative Leadership.**

2020- Pioneer in Medicine Award, 2020 Society for Brain Mapping and Therapeutics (SBMT).

XI. MAJOR RESEARCH INTERESTS AND EXPERIENCE

Programing: Assembly language (IBM 360; PDP-12; PDP-11); Fortran, Basic, 'C', MATLAB and IDL.

Mathematics: Taken courses in calculus, differential equations, advanced calculus and complex analysis. Have studied the history of mathematics, differential geometry, algebraic topology and nonlinear dynamics.

Research Experience: Have published papers in developmental neurobiology, learning, memory, cognitive neuroscience, neurotoxicology, neurophysiology of time representation, neurophysiology of aesthetics, nonlinear dynamical models of brain development, mathematical models of EEG coherence, mild and severe neural trauma and functional neuroimaging. Experienced in multichannel EEG, Positron Emission Tomography (PET), Magnetic Resonance Imaging (MRI), multimodal registration of PET, MRI and EEG, dipole analyses of EEG and evoked potentials, intracellular and extracellular single unit analyses and multiunit analyses. Experienced in MRI segmentation and brain image classification analyses. JTFA analyses of coherence, power, phase and phase reset in controls, autistic subjects, traumatic brain injury and neuropsychological functioning.

Clinical Experience: Have written over 10,000 test reports using psychometrics and/or neuroimaging and/or electrophysiology. Clinical neuroscientist at the New York Medical College quantitative EEG clinic with E. Roy John in 1974. In 1977, with Drs. E. Roy John, Leslie Prichep and Bernard Karmel developed the first QEEG certification examination at NYU School of Medicine. Founded and directed the Neurometric Clinical Service at Shock Trauma, University of Maryland during which approximately 1,500 head trauma patients were evaluated. Patient experience includes children with learning disabilities and ADD, adults with tumors, strokes and mild and severe brain injury. Computerized EEG evaluator and report writer for Traumatic Brain Injured (TBI) patients as part of the Department of Defense and Veterans Head Injury Program (DVHIP). Responsible for training of neurology residents in clinical computerized EEG and clinical evoked potential analyses of various types of neurological disorders.

Administrative Experience: Have administered public and private grants, directed the Applied Neuroscience Institute at the University of Maryland, directed the Neurometrics Clinical Service at Shock Trauma, University of Maryland. Project officer for the NIH 128 channel EEG and EP system, responsible for design and implementation. Project director for multi-center EEG-MRI analyses of TBI patients for the Department of Defense and Veterans Head Injury Program (DVHIP), 1993 – 2006. Director of the Applied Neuroscience Research Institute.

Business Experience: Founder (2001) and CEO of Applied Neuroscience, Inc.

XII. CURRENT AND PAST FUNDED RESEARCH PROJECTS

P.I.: USDA Grant (HRD-0200) 1979-1984
P.I.: USDA Grant (CSRS 801-12-09C) 1979-1982
P.I.: USDA Grant (CSRS 701-15-05B) 1979-1983
P.I.: MineraLab Grant (\$20,000 in free analyses) 1981-1983
P.I.: NIH (RR-08079-09) 1982-1985
P.I.: Gallaudet College for the Deaf 1984-1985
Co-P.I. Ryan Foundation Grant 1985-89
Co-P.I. Columbia Foundation Grant 1985-89
P.I.: Cardiovascular Research Ltd. Grant 1985-89
P.I.: USDA Grant (NUT-0402) 1985-89
P.I.: I.B.M. Fulcrum-II Equipment Grant 1987-91
P.I.: D.O.D. research grant in traumatic brain injury (DVHIP) 1994-2001
P.I.: 3-Dimensional analyses of EEG and MRI in TBI patients Bay Pines Foundation
2001-2006

XIII. PROFESSIONAL FACILITIES

Location of Administrative Office: 248 176th Terrace Drive, Redington Shores, Florida
Location of Marketing and Product Development: 3831 Tyrone, Suites 103 & 104,
St. Petersburg, Florida.

XIV. GRADUATE STUDENTS AND POSTDOCTORAL FELLOWS SUPERVISED

Dr. Eileen Maisel, University of Connecticut, 1975-1979.
Dr. David Cantor, State University of New York at Stony Brook, 1981-1985.
Dr. Harriet Hanlon, Virginia Polytechnic Institute, 1991-1994.
Dr. Ashlie Bell, Saybrook University, 2016-2018
Dr. Kris Williams, Saybrook University, 2021-2022.

XV. BIBLIOGRAPHY

A. BOOKS

Thatcher, R.W. and John, E.R. Functional Neuroscience, Vol. 1: Foundations of Cognitive Processes, E.R. John and R.W. Thatcher, Editors. L. Erlbaum Assoc., N.J., 1977.

John, E.R. Functional Neuroscience, Vol. II: Neurometrics: Quantitative Electrophysiological Analyses. E.R. John and R.W. Thatcher, Editors. L. Erlbaum Assoc., N.J., 1977.

Harmony, T. Functional Neuroscience, Vol. III: Neurometric Assessment of Brain Dysfunction in Neurological Patients. E.R. John and R.W. Thatcher, Editors. L. Erlbaum Assoc., N.J., 1984.

John, E.R., Pritchep, L.S., Ahn, H., Kaye, H., Brown, D., Easton, P., Karmel, B., Toro, A., and Thatcher, R. Neurometric Evaluation of Brain Function in Normal and Learning Disabled Children. The University of Michigan Press, Ann Arbor, Mich., 1989.

Thatcher, R.W., Hallet, M., Zeffiro, T., John, E.R. and Huerta, M., Editors. Functional Neuroimaging: Technical Foundations, New York, Academic Press, 1994.

Thatcher, R.W., Lyon, G.R., Rumsey, J. and Krasnegor, N. Editors. Developmental Neuroimaging: Mapping the Development of Brain and Behavior, Academic Press, Florida, 1996.

Thatcher, R.W. Handbook of Quantitative Electroencephalography and EEG Biofeedback, Anipublishing, Florida, 2012.

Thatcher, R.W. and Lubar, J.F. (Editors) (2014). Z Score Neurofeedback: Clinical Applications. Academic Press, San Diego, CA.

Thatcher, R.W. 2nd Edition. Handbook of Quantitative Electroencephalography and EEG Biofeedback, Anipublishing, Florida, 2016.

Thatcher, R.W. Beauty and the Brain: The Aesthetic Compass. Dorrance Publishing, Co (in Press 2023).

B. BOOK CHAPTERS

Thatcher, R.W. Neural space-time structures involved in the reconstruction of an interval of time. In: Holography in Medicine, P. Gregeus, (ed.), IPS Science and Technology Press, 1975.

Thatcher, R.W. and John, E.R. Information and mathematical quantification of brain states. In: Behavior and Brain Electrical Activity, N. Burch and H.L. Altchuler, (eds.) Plenum Press, 1975.

Thatcher, R.W. Electrophysiological diagnosis of the learning disabled child. In: Proceedings of Panel on Basic Issues in Working with the Learning Disabled Neurologically Handicapped Child, H. Blau, (ed.), Blau Research Center, Inc., Queens, N.Y., pp. 21-26, 1975.

Thatcher, R.W. On the neural representation of experience and time. In: Experience Forms: Their Cultural and Individual Place and Function, G. Haydu (ed.), Mouton, Amsterdam, 1976.

Thatcher, R.W. Electrophysiological correlates of animal and human memory. In: The Neurobiology of Aging, R.D. Terry and S. Gershon (eds.), Raven Press, 1976.

Thatcher, R.W. and April, R.S. Evoked potential correlates of semantic information processing in normals and two aphasic patients. In: The Neuropsychology of Language: Essays in Honor of Eric Lenneberg, R.W. Rieber, (ed.) 1976.

Thatcher, R.W. Evoked potential correlates of hemispheric lateralization during semantic information processing, In: Lateralization of the Nervous System, S. Harnad (ed.), Academic Press, 1977.

Thatcher, R.W. Review of the Book: The Neurophysiological Aspects of Human Mental Activity, 2nd Edition", N.P. Bekhtereva, Cambridge University Press, 1977.

Kaye, H., Thatcher, R.W., and Karmel, B.Z. Electrophysiological approaches to non-biased pupil assessment. In: Proceedings of the Multi Cultural Colloquium on Non-Biased Pupil Assessment, L. Elm (ed.), U.S. Government Printing Office, Washington, D.C., 1978.

Thatcher, R.W. Electrophysiological analyses of cognition. In: Proceedings of the Winter Brain Research Conference, C. Ying-Ling (ed.), Brain Information service, UCLA, 1978.

Thatcher, R.W. Neurolinguistics: Evoked potential correlates of language and cognition. In: Perspectives in Event-Related Brain Potential Research, D. Otto (ed.), U.S. Government Printing Office, Washington, D.C., 1978.

Thatcher, R.W. Neuroelectric techniques in clinical neurology. In: The Proceedings of the 17th Annual San Diego Biomedical Symposium, Academic Press, 1978.
